

**We are not just looking for pilots, we are looking for great pilots  
who can become great aerial surveying pilots !**

EUROSENSE, one of the European leading airborne data acquisition companies, is currently seeking passionate, professional, driven freelance Aerial Surveying Pilot to conduct survey operations in high performance Cessna 404 aircraft at our operational base in Antwerp, Belgium (This position requires residence or relocation to Belgium).

As a pilot with EUROSENSE you will safely conduct flight missions to acquire Lidar, digital imagery, and thermal data. In addition, you are responsible for the care, maintenance, and upkeep of the aircraft during missions as well as the safety of any other crewmembers aboard the aircraft.

#### **Duties:**

- Pilot in command on Cessna 404
- Conduct flights in compliance with EASA regulations, aircraft limitations and company SPO procedures
- Fly aircraft to project required specifications
- Effectively work with the team to complete each mission safely, efficiently, and accurately
- Ability to travel up to 30% of the time
- Pilot can expect to fly 150-300 hours per year

#### **Qualifications/Licenses:**

- Valid EASA CPL - ATPL Theory – MEP(L) /IR – MCC – EASA Class 1 medical
- Valid driver's license
- Clean safety record

#### **Required Skills/Experience:**

- Minimum 600 h TT of which a maximum of 50 h performed on a Flight Simulation Training Device (FSTD)
- Have MEP training on a multi lever aircraft (No DA42 and no glass cockpit)
- Have >150 h on multi engine piston aircraft multi lever + retractable gear as PIC
- Flown min. 50h in the last 6 months
- Single-pilot flight operation experience
- English / Dutch / French >= level 5

#### **Preferred Skills/Experience:**

- Have experience on Cessna 400 series is an asset or must if short term PIC
- Have experience in aerial surveying operations is an asset or a must if short term PIC
- Experience flying in controlled airspaces within BENELUX, Germany, France
- Class B Airspace experience preferred
- Ability to demonstrate confidence, professionalism, high self-motivation, and solid decision-making abilities

**Job Type:** Freelance

**Availability:** Immediate

If you are mission-oriented and you want to apply your intelligence in addition to your piloting skills to accomplish something more challenging than 'point A to point B' flying, this opportunity is perfect for you.
